

Year 6 Maths Homework

£2.76

£6.47

£8.33

How much are 2 caps and a shoe?

What change do I get from £10 if I buy some jeans?

If I have £10 in my pocket, how much more do I need to buy a cap and some jeans?

How much more are the shoes than the cap?

Which is more expensive, 7 caps or 3 shoes?

I buy a shoe and some jeans and get 10% off my total in a sale. How much do I **save**?

In another sale, the cost of caps is only $\frac{3}{4}$ of their normal price. If I buy 2 caps, how much do I **spend**?

I want to buy one of everything. How many weeks must I save for if I save £1.50 each week?

To the nearest pound, how much would I pay if I bought 1 of each item?

Before I leave the shop I buy a cap and 2 scarves. I pay £10. How much is the cost of a scarf?

In another shop I buy 5 bags of crisps. I pay £1.85. How much is one pack?

Then I buy 6 drinks and pay £4.62. How much are 2 drinks?

EXTENSION

How much to the nearest pound would my bill be if I bought 10 of everything?

When I buy 10 pairs of shoes I save 30% how much do I pay?

I spend £49.93 on some caps and jeans. If I buy 3 caps, how many pairs of jeans do I buy?

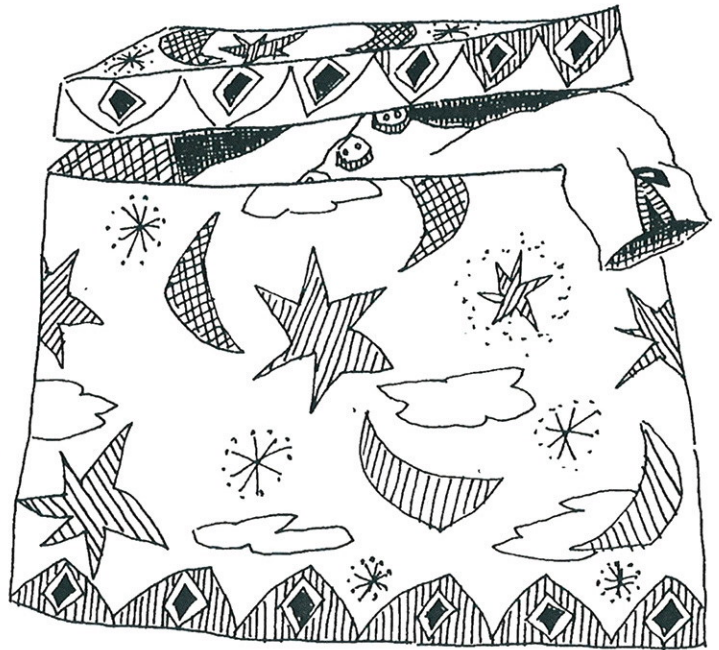

Choose your own colour

Auntie Agatha has given you a fantastic present for your birthday.

It is a new coat that will change colour ! On the box it says

Choose your own colour

and then gives you instructions on how to do it.

Your task is to write the detailed instructions to make the coat change colour.

Before you start, make some brief notes:

- First
- Then
- Then

Remember, you will NOT receive any marks for pictures or decoration.
