Year 2 Homework

This is the homework for both Year 2 classes.

Homework to be handed in by Thursday 2nd February.

Maths

This week we have been working on division. Children have been shown how to do this in 3 alternative ways; physically sharing a quantity into groups, repeated subtraction or using existing knowledge of times tables. For homework I would like you to use any of these strategies to work out the solutions to the problems below.

2 ÷ 2 =
8 ÷ 2 =
10 ÷ 2 =
4 ÷ 2 =
6 ÷ 2 =

3 ÷ 3 =
15 ÷ 3 =
12 ÷ 3 =
9 ÷ 3 =
6 ÷ 3 =

You may want to use quantities of household object objects to share physically, as we did with multilink cubes in school.

Literacy

This week in literacy we have been looking at alternative versions of Little Red Riding hood. In the traditional version of the story, the woodcutter rescues Little Red Riding Hood from the wolf where as, in the Roald Dahl version, Little Red Riding Hood shoots the wolf with a pistol. For homework I would like you to write your own alternative ending to any fairy tale of your choice. You do not need to write the full story but just the ending you have created. You may want to draw a picture of the story ending.

Spellings

Over the past week, children in the class have had trouble spelling some of the same words. Please try and learn as many of these words as possible to improve our writing. I will test to see how well we are all doing on Thursday 2nd February.

Called	January
Balloon	Wednesday
Where	Why
Because	Very

However, please don't practice spelling these words in your homework book.
