

## Year 2 Homework

This is the homework for both Year 2 classes.

Homework to be handed in by Thursday 2<sup>nd</sup> February.

### Literacy

Thank you all for the alternative endings to fairy tales which were brought in last week, they were fantastic. This week we have been describing characters and settings in fairy tales such as Little Red Riding Hood. I would like you to write to describe the picture below.

Remember to include lots of powerful adjectives to make your writing more interesting. Try to make your sentences compound by using connectives, linking two or more ideas together.

### Spellings

Over the past week, children in the class have had trouble spelling some of the same words. Please try and learn as many of these words as possible to improve our writing. I will test to see how well we are all doing on Thursday 9<sup>th</sup> February.

too	into
are	back
off	with
of	when

However, please don't practice spelling these words in your homework book.

### Maths

We have been doing a lot of work on times tables in our maths lessons this week. We have been having trouble with our 5 times tables so for homework I would like you to practise this by using the 'Eggs on Legs' sheet below.

# Eggs on Legs

Name \_\_\_\_\_ Date \_\_\_\_\_

$$7 \times 5 = \text{egg}5$$

$$\text{egg} \times 5 = 45$$

$$5 \times 5 = 2\text{egg}$$

$$7 \times 5 = \text{egg}5$$

$$\text{egg} \times 5 = 50$$

$$0 \times 5 = \text{egg}$$

$$7 \times 5 = 3\text{egg}$$

$$5 \times 5 = \text{egg}5$$

$$8 \times 5 = \text{egg}0$$

$$8 \times 5 = \text{egg}0$$

$$\text{egg} \times 5 = 50$$

$$1 \times 5 = \text{egg}$$

$$6 \times 5 = \text{egg}0$$

$$\text{egg} \times 5 = 10$$

$$3 \times 5 = \text{egg}5$$

$$10 \times 5 = 5\text{egg}$$

$$\text{egg} \times 5 = 15$$

$$\text{egg} \times 5 = 50$$
