

Year 2 Homework

This is the homework for both Year 2 classes.

Homework to be handed in by Thursday 19th January.

Maths

This week we have been working on telling the time. For homework I would like you to pick any day in the week and mark the times of 4 different things you have done, on the clocks below. Then I would like you to tell me what happened at that time, using the lines on the right. Remember that the small hand points to the hour and the big hand points at the minute.

Geography

We have now started a new topic which is called 'There is a Viking in my Classroom'. As part of this we have been looking at where the Vikings came from, Scandinavia. For homework I would like you to label the blank map below with the following features:

- England
- Ireland
- Scotland
- Wales
- Denmark
- Norway
- Sweden
- North Sea
- Sea Atlantic

Remember, to help you, there is a map of Europe in your homework book. Last of all, I would like you to think about the journey which the Vikings had to take to get to England and how they would get here.
