

Year One Homework Thursday 1st December

Literacy:

As there are lot's of celebrations coming up, we thought that it would be a good idea to make a list of the things that you would want or need for your celebration.

For example:

A letter to Father Christmas with your wish list.

A list of party food you might want for your birthday party.

Numeracy:

In numeracy we have been measuring. Could you find items in your house that are:

1. Bigger than your hand span
2. Smaller than your hand span
3. The same size as your hand span

EXT: You could measure these objects using a ruler or cubes e.g. the control is 15cm long or the control is 5 cubes long.
